

**New Brunswick Career Development Action Group
Now is the time to join NBCDAG**

Your support will ensure the continuation and enhancement of our services

For many years, the New Brunswick Career Development Action Group (NBCDAG) has provided leadership to the Career Development field in the province. For over 15 years, NBCDAG has offered an annual *Making Connections* Career Development Conference that is second to none, and is well-recognized nationally for its excellent keynote speakers and high quality workshops. NBCDAG has also gathered and shared timely professional information, and represented New Brunswick Career Development Practitioners both Provincially and Nationally through various groups. NBCDAG's goal is to promote Career Development as widely as possible.

NBCDAG is launching the Certified Career Development Practitioner Certification program for New Brunswick Practitioners at the 2013 Conference November 6/7. Applicants who meet the criteria will be issued a Certificate by NBCDAG. Membership in NBCDAG is a requirement for this certification. Certification for Career Development Practitioners is now in place in BC, AB, and is in the process of being developed in QC, NS, and ON. We expect that reciprocal transfer of Certification with these Provinces will soon be in place.

NBCDAG has recently partnered with the Canadian Education and Research Institute for Counselling (CERIC) to offer a series of professional development Webinars. NBCDAG members save \$10 on each Webinar registration

NBCDAG is also a supporting partner for CERIC's annual CANNEXUS National Career Development Conference and NBCDAG members enjoy a discount on Conference registration fees.

The Canadian Council for Career Development (CCCD) has recently been launched, supporting pan-Canadian collaboration on common issues such as certification, training and practitioner mobility, promoting national cohesion and serving as a strong voice for our field nationally and internationally. NBCDAG is a member of CCCD

Professional associations for Career Development Practitioners exist in most Provinces. Practitioners recognize the value in membership in these associations. If New Brunswick Practitioners wish to enjoy the pride and benefits of being part of a national and global profession, and the increased Professional Identity associated with membership in a professional organization, it is time to invest in NBCDAG membership

Membership is \$50.00 annually, and membership forms and further information can be found on the NBCDAG Website @ <http://www.nbcdag-qadcnb.ca> .

We encourage you to join (or renew membership in) the New Brunswick Career Development Action Group
